1. Right click the CGDI icon on the desktop, choose the option "Open the location of the folder".

1. Copy or cut the folder "psdzdata" and paste it into the category. Now you are ready to use F series programming functions.

Please enjoy!

CGDI BMW F series programming feedback:

1. Program F30 326 2013 FEM smart key...OK
2. program F31 smart key FEM...OK

More...

1. CGDI PROG bmw f20 2014 mileage reset OK
2. read ISN DME MSD80 OK 5WK93628
3. the CAS Plug from BMW Multi Tool will work with CGDI, because CAS and OBD connector are BMW standard protocol.
